He is recommended to take Porta 3 first, as he has no branches. There is the possibility that Santa Claus has returned Seven, Lotus and Junpei to their normal lives after throwing them out at the end of the game. The extremities are in decreasing order (from 6 to 1), with the additional end of the IOS at the bottom. She realizes that Clover may have injected him because she thought she was the one who killed Snake and that her death might have made her lose her head. Junpei chases her and unfolds near the central scale that leads to D deck. Ace admits that he is GentaRou Hongou, CEO of Cradle Pharmaceutical, but denies knowing something about the non -game game. To reach the end of the coffin, you must follow all the following steps for the real ending, but not yet completed the Safe Ending. He admits that he was defeated by scratch but not by Junpei. The romantic scene with Junpei and June also does not occur. In this, everything is the same as in the knife final, but the body of Clover is actually located in the bathroom of the first class cabin, keeping the "left hand" card and the bracelet 0 by the captain and Lotus is not killed by Ace. Siring Finding The Syringe Clover has injected Junpei with. Ace kills Clover. She explains the reasons for him, being that 9th Man knew ACE, to get the number 9 bracelet as it is an important number, and that he wanted to see if the non -game was a joke or not. Blood under Ace is it to suggest Junpei, Seven and Lotus that he was killed. Safe/Zero Lost Ending The "left" tip that Clover kept. Everything that happens in this ending is the same on the DS until Seven speaks to the remaining players of the death of "Snake". Realizing that Akane of the past is trying to speak with Junpei and help him, she guides her through a puzzle of Sudoku and, to her, helps her and rewrite her past saving her. Seven then says to and Clover to see what's behind Door 3, Ace going with them. them. In mourning for his death and realizing that someone has taken his bracelet, he is stabbed in the back by Ace (confirmed due to other endings). However, before going, Junpei thinks of himself and June and what Kanny called her. Ace wastes all six gold gun bullets on Snake, who keeps him the incinerator until they both burn alive. Junpei then realizes who A` the murderer. Because the lost end is secas/zero end can be canonical in another sequence/universe. It is recommended to perform this finish before the safe and after the submarine. Despite his fight and heartbreak, Junpei accepts the offer, only to be cut in the neck by the ax that was in the captain's quarters. Ace says it was framed and Junpei uses it to his advantage, saying that the real name of Ace A` Gentarou Hongou. A coffin that ends the cliffhanger in the end of the coffin. Once Akane A` is saved, the incinerator door opens and the remaining players (snake, clover, seven, junpei and lotus) escape and find themselves on top of a building, which is building Q. After some time, Clover returns alone, and reveals the armbands of the others to Junpei. Later, he notices that seven and lotus are missing, searches for them and discovers that they have been murdered again outside the automatic door. But in the safe ending, he is shown to have the golden revolver. Ace asks how he could have killed Guy X, saying he could not do it alone, but Junpei says he could have and puts his hands in his pocket saying he had taken something out of Ace while he was unconscious. Junpei reveals that you don't need to place your hands on the scanner panel to activate the red but simply using the bracelet works. Everyone questioned Junpei on how he knows the information he does and never has an answer until the end of the game when he realizes that Akane looked through him through him and planting information in his thoughts of him. Clover would think that his bracelet, Junpei and the captain have a digital root of 9, like 4 + 5 + 0 = 9, but in reality it would be 6, like 4 + 5 + 6 = 15 -> 1 + 5 = 6 and 6 it is not the correct digital root to pass through Porta 9. During the game, however, Junpei in the end discovers that it can save the Akane of nine years ago by drawing on the morphic resonance camp. Zero contacts him, saying he (zero) he lost the game. Throughout the game, seven will regain some of him and tell Junpei as he was a detective and he was in ACE before being captured by his men and thrown into a cell. In this final, the team that crossed Porta 6 (ACE, Santa, June and June) finds the chapel with the two 9 doors. Ax that ends this ending is obtained by crossing the door 1 and not following the real final path. He sinks more deeply into the water, asking for those who killed them all, until everything vanishes with black. However, it is not clear exactly what happens after Clover starts in this final. Knife who finishes reaching this ending by crossing the door 6 without actually following the secure final route, which means that this ending is reached only by crossing the door 4 or Porta 7, or both. C1c guarantees access to Cradle's pharmaceutical secrets in the safe, in the same room with the names of the four minds behind the first game not Ariaro, in addition to the plot of revenge of zero. The four leave, while Ace has a private speech with Lotus to "show her something", and Junpei remains behind to wait. At this point, mentally and emotionally broken, Junpei stumbles without thinking about it where it is stabbed in the back. This ending is necessary to obtain the real end, due due past Akane's morphic resonance on the "sinister hand" tip. The ending follows like the True Ending, but stops just before Junpei opens the coffin, as he doesn't know how to figure out the numbers for the coffin's lock. He explains that he could have used his own bracelet along with Guy X's and the 9th Man's to open Door 3. Ace says he's Junpei, but Junpei says he is Santa claiming they swapped clothes. This ending would also be a very misleading one for a player who is unspooled and sees this ending before the Safe/True endings; it would mislead them into thinking that Clover was the killer in other timelines. This ending is achieved by going through Door 5, then Door 8, and finally Door 6. While in the car, Junpei asks Ace and Seven about All-ice. Clover also killed a defending June because she "got in the way". Santa asks what the grudge was and Junpei shows him the paper he got from the safe. He then admits to being the killer of the 9th Man, by tricking him into believing the DEADs were modified and going into Door 5. Based on some of the other endings (where Ace kills Lotus to obtain her bracelet), it is easily reasoned (though not explicitly shown) that Ace, after separating Lotus from Junpei, killed Lotus in this ending to steal her bracelet, so that he could use her 8 bracelet along with his own bracelet and the one he stole from the corpse of the 9th man in order to escape on his own (1 + 8 + 9 = 18 -> 1 + 8 = 9). Revealing that the object Junpei spotted her hiding in her pockets earlier was the deceased Captain's zero bracelet, Clover offers her hand to Junpei, as they can now go through Door 9 together (4 + 5 + 0 = 9). June dies in Junpei's arms. Considering the value of the 0 bracelet given in other endings (it is actually 6), Clover would have problems when facing door 9, because the zero bracelet from the captain that she was holding actually had a different value; it had a value of 6 despite a face value of 0. People may get confused on this one because the survivors could restrain Ace, since he only has a knife. After searching for Clover in the large hospital room, Junpei and June decide it would be best to split up to cover more ground. June suffers from her fever and stays in the large hospital room with Santa. A gas grenade appears and knocks Junpei unconscious, Junpei stabbed and drowning to death. For endings from other Zero Escape games, see Endings In the DS and The Nonary Games versions of Zero Escape: Nine Hours, Nine Persons, Nine Doors, there are six endings, although only one of them is canon (The True Ending). Junpei also discovers that the players in the Second Nonary Game are connected in one way or another to the First Nonary Game and also finds out who was involved in the First Nonary Game. Junpei hears a bumping in the nearby coffin and, using the "sinister hand" tip, frees an oddly-clothed Snake. Perhaps she would learn that Snake is alive, which would be extremely traumatic for her to realize that she killed three innocent people. Lotus's corpse. There is no other way "A~A~A. The director himself said that he "didn't believe Clover made it out" in this ending. Finding the incinerator room with Ace and Lotus, Ace reveals his evildoings to Snake, who goes on a rampage against his nemesis to avenge Clover's death. This is the only ending that doesn't show what happens to June, although it is assumed that she dies because Junpei would not be able to save her in the incinerator. Junpei resonates his thoughts with a young Akane. In this one, after the discovery of Door 9, Clover insists on going through Door 2 (which at this point in this pathway, is the only Numbered Door unexplored by the players), with Santa, June and Seven. Ace goes back Collect Junpei's bracelet, presumably to kill others. He reveals that Clover told him that Snake had a prosthetic left arm, and that the bone in the left arm of Guy X's corpse in the shower was exhibited. Players can also combine this ending with the Ax Ending, which could happen because of the similarities on the attitude of Clover, but none of these is revealed, since Junpei dies quickly. Junpei, Seven and Lotus manage to escape. Clover stops the car to let it enter. After Junpei, June, Seven and Santa Claus run away from the shower, return to the large hospital room. room.
